## COVER LETTER

---

Dear Priyanka

Thanks for your prompt response on LinkedIn.

As discussed, I am looking for opportunity in Medtronic's for Data Engineer roles.

For the same please find below enclosed technical abilities in short for your reference.

- Currently working as solution specialist for data engineering projects in Deloitte
- Seasoned in delivering **Pyspark** and **big data** projects
- Proficient in-depth understanding of **spark cluster and optimization techniques**
- Proficient in **shell** programming and **Python** programming
- Proficient on **ETL concepts** and **Informatica power center and BDE**
- Good Understanding and hands on following cloud services
- **Azure**: ADF (Azure data factory), ADLSG2 (Azure Data lake storage G2), Synapse Analytics (formerly Azure SQL DW), Azure Data Bricks
- Good Understanding on **US Healthcare system** domain
- Worked on multiple **proposals and estimates** for data modernization, and operate projects

Sincerely,  
Srikanth Kowtha
